SKILLSTORM WELCOMES NEW COMPANY PRESIDENT, DOUG WISE

FT. LAUDERDALE, FL – July 27, 2018 — Doug Wise joins SkillStorm, a national IT solutions company, as the company president. As president of SkillStorm, Wise is responsible for the SkillStorm strategic vision as it relates to both operating divisions: Onsite Technology Services and Cloud Workforce Solutions. In addition, he oversees all SkillStorm operations, including risk management, financial reporting, and compliance. Wise is based out of SkillStorm's Charlotte, North Carolina office.

"Through the efforts of our dedicated Stormers and thanks to the loyalty of our customers, SkillStorm has experienced explosive growth over the past several years. In order to continue the momentum and help us realize our goal of becoming one of the top IT solutions firms in the country, we recently decided to bring in an experienced professional to lead the organization through its next phase of growth," said CEO Vince Virga. "After an extensive search, the decision was clear. We hired Doug Wise. He is not only a highly accomplished leader, but he is an excellent fit for the SkillStorm Core Values and culture – the primary reason for our success. I'm thrilled to have Doug on the team and beyond excited for our future."

Wise has been a senior executive leader within the IT services industry for over two decades. He started his career in 1993, initially serving as a Recruiter. He quickly and consistently ascended into roles of greater responsibility including Sales, Account Executive, Director of Operations and Vice President.

"I'm excited to join a company that is forging a new path in the IT services industry. It's especially exciting to work with a group of people who live our core values everyday of the week," said Wise. "My goal is to be a great team member and accelerate opportunities for our customers and employees."

ABOUT SKILLSTORM: SkillStorm rapidly builds and deploys IT & Operations teams with critical skills in client facilities or in one of our U.S.-based delivery centers. Founded in 2002, SkillStorm specializes in providing services on the leading edge of technology. SkillStorm teams are tasked with executing high-impact projects such as developing applications in agile environments, building mobile apps, harnessing "Big Data's" potential and strengthening information security efforts for Fortune 1000 and fast-growing tech companies. SkillStorm is headquartered in Fort Lauderdale, Florida and has offices nationwide. Learn more at www.skillstorm.com.
