## **SKILLSTORM EXPANDS TO TORONTO AND HIRES NEW VICE PRESIDENT, CANADA**

**FT. LAUDERDALE, FL – January 10, 2019** — Doug Wise, president of SkillStorm, announces the company's newest location in Toronto, Ontario. SkillStorm, a North American based IT solutions company, is thrilled to expand their go to market services to the Toronto market.

"We are excited to bring our unique service offerings to the Toronto market. The GTA has been a driving force in banking and IT industries globally and our offerings align with the market," said Wise. "With the new market comes a strategic hire for SkillStorm. Mark Healy is a veteran in the IT field and we are thrilled to have him join our team."

To lead our team in Toronto, SkillStorm has hired Mark Healy as the Vice President, Canada. Healy has been a senior leader in the IT services industry for over a decade. He started his career in 2003 as an Account Manager responsible for project staffing.

As Vice President, Canada, Healy will be responsible for partnering and servicing SkillStorm clients. Healy will be chiefly responsible for growing our business and client roster in the Canadian market. We feel very confident that with our unique service offerings and flexible approach combined with Healy's client network will enable SkillStorm to continue to grow its' business across Canada.

"I couldn't be more excited to join SkillStorm! I know this is a company with incredible leadership as well as some true and real differentiators that we can offer to clients across the Canadian markets," said Healy. "With the SkillStorm track record of building both on-site technology teams who work at client sites as well as offering to house Cloud Workforce Solutions teams in our own locations, I know clients are going to be excited about our flexible approach."

**ABOUT SKILLSTORM:** SkillStorm rapidly builds and deploys IT & Operations teams with critical skills in client facilities or in one of our North American based delivery centers. Founded in 2002, SkillStorm specializes in providing services on the leading edge of technology. SkillStorm teams are tasked with executing high-impact projects such as developing applications in agile environments, building mobile apps, harnessing "Big Data's" potential and strengthening information security efforts for Fortune 1000 and fast-growing tech companies. SkillStorm is headquartered in Fort Lauderdale, Florida and has offices nationwide. Learn more at [www.skillstorm.com](http://www.skillstorm.com).
